

Plant Pot cans!

You will need:

- Some empty Del Monte Fruit cans
- A drill
- Soil
- Flowers/Herb/Spice seeds
- String (optional)
- Label (optional)
- Pen (optional)

Method:

- Ask an adult to soak the can to remove the label; and thoroughly clean and dry it for you.
- Also ask an adult to drill 3 small holes in the bottom of the can.
- Fill the can about 80% with soil and place your chosen seeds / plants into the soil.
- You can write on a label what you've planted and attach it to string. Then tie the string around the top of the can.
- Follow the instructions on your seed packet; making sure to water your seeds / plants regularly and then watch them grow!

Be careful: Make sure you have an adult supervising and be careful of sharp edges!
